

My influential project

My mom Estona Jones

I chose Estona Jones because she is a hard worker and totally deserves to be my influencer. Even though there is a lot of other people she is number one let me explain...

She worked so hard to raise me and, if it wasn't for her i would not be the person I am today. She pushed and pressured to get me into schools that would only give me knowledge and show me who I am

Things about my mom
